RingCube Technologies Named "Cool Vendor" by Leading Analyst Firm

Vendors selected for the "Cool Vendor report" are innovative, impactful and intriguing

Mountain View, CA - March 21, 2007 - RingCube Technologies has been included in the list of "Cool Vendors" in the "Cool Vendors in PC Technologies, 2007" report by Gartner, Inc. by Leslie Fiering, Michael A. Silver, Brian Gammage, Joseph Unsworth and David Mitchell Smith, March 7, 2007.

The report highlights vendors who "demonstrate emerging capabilities in the areas of mobility and portability, ease of use, application integration and virtualization" that "enable PC users to perform their jobs with ease, flexibility and mobility." Segments covered for each innovator include "Why Cool", "Challenges" and "Who Should Care",

"With MojoPac, we have introduced the first Secure Soft Desktop, which converts any Windows computer into your personalized PC," said Shan Appajodu, President and CEO. "We believe this recognition from Gartner validates the MojoPac vision that uncouples personal and corporate desktops from the confinement of individual computer systems. MojoPac allows people to securely take their personal applications and settings with them on a USB device, whether taking work home or for PC gaming or other personal uses."

MojoPac is the first product to deliver true operating system virtualization for the Windows platform. As a result, MojoPac users can truly install and carry all of their vital Windows applications, games, multimedia players and settings with them. Users can

truly transform any Windows PC into their personal desktop, simply by plugging in their MojoPac-powered USB storage device.

MojoPac appeals to traveling professionals and commuters who want to leave their notebooks behind for a trip or day extenders who want to bring work home in the evenings or on weekends. The software can be downloaded for \$49.95 directly from the MojoPac Web site at <http://www.mojopac.com>.

About Gartner's Cool Vendors Selection Process

Gartner's listing does not constitute an exhaustive list of vendors in any given technology area, but rather is designed to highlight interesting, new and innovative vendors, products and services. Gartner disclaims all warranties, expressed or implied, with respect to this research, including any warranties of merchantability or fitness of a particular purpose.

Gartner defines a cool vendor as a company that offers technologies or solutions that are: Innovative, enable users to do things they couldn't do before; Impactful, have, or will have, business impact (not just technology for the sake of technology); Intriguing, have caught Gartner's interest or curiosity in approximately the past six months.

About RingCube Technologies, Inc.

Founded in 2004, RingCube is the creator of truly portable personal computing. The company's software platform, MojoPac, enables users to take their complete personal computing experience with them wherever they go, on any USB storage device they already carry, and access their programs, data, and settings, from any host computer around the world. The company is venture backed by New Enterprise Associates (NEA) and Mohr Davidow Ventures (MDV) and is based in Mountain View, California.
